

We are thrilled to share some exciting news with you! Charlottetowne Animal Hospital is moving to a new location to better serve you and your furry family members. Starting Mid October, you can find us at our new home:

****New Address:****

1344 SC-160

Fort Mill, SC 29715

Our last day in our current building, on Third St, will be September 10th. This move represents a significant step forward for our hospital, allowing us to enhance the quality of care we provide. Our new facility is larger, more modern, and designed with your pet's comfort in mind. We've also gained a larger parking area for easier access.

All of your pet's files and documents will move to the new building so it is no hassle at all to switch over! While we know this move will be closer for some, it may be too far of a drive for others. We hate to see anyone go, but have ensured all files will be accessible, and we will help transfer them to a closer facility if need be.

While our address is changing, our commitment to your pet's health and well-being remains the same. You'll continue to see my friendly face, receive the same compassionate care, and enjoy the personal attention you've come to expect from us.

As this move is bringing us to a new city, we have decided to alter our name to avoid location confusion. Our new name will be Mill Springs Animal Hospital! If you have any questions or need directions, please don't hesitate to reach out. You can contact us at (803) 969-0626 or millspringsah.com. We look forward to welcoming you and your pets to our new location soon!

Thank you for being a part of the Charlottetowne Animal Hospital family.

Warm regards,
Dr. Rachel Brant
